

Confidential PC Technology Study: Azam Software

(To be undertaken by persons who have speech problems)

Thank you for agreeing to take part in this confidential controlled experiment, which if successful can help a lot of people.

Please read the enclosed 36 items (A for Alpha, B for Bravo...9 for Nineretc).

Please read it 3 times as clearly as you can. The first time, in your usual every day voice, the second as slowly and clearly as you can and the third as fast and clearly as you can.

While doing so, if you want to repeat a word at any time as a second or third 'take' that will be fine.

When you have done the above, please give me a one – two minute or so voice clip about anything you wish, may be about your life or hobbies. Try and include a few words you have difficulty in pronouncing. If none come to mind, try pronouncing my unusual name. **To maintain strict confidentiality, please avoid emailing anything that can identify you personally in the Azam recording.** Please send the Azam recording to adi@azamit.com and use a subject line of 'Azam ADI Voice Effects' to avoid spam filters

I hope we can be of assistance.

Kind regards

Andronicos
